Herewith is is (a) a memorandum from [REDACTED] and attached summary of GFE shipped to test base and (b) list of GFE received at the site through 15 July. Would you start to work on a comparison and reconciliation of these documents. Would you also at your convenience draft a memorandum from me to [REDACTED] in reply to his. It seems to me that the requests contained in his memorandum are entirely reasonable and that we should indicate our concurrence.
